

SUT JOURNAL OF MATHEMATICS

(Formerly TRU MATHEMATICS)

CONTENTS OF VOLUME 55 (2019)

Chaubey, S. K.	
Characterization of the Lorentzian para-Sasakian manifolds admitting a quarter-symmetric non-metric connection	53
De, U. C. (See Chaubey, S. K.)	
Hashiguchi, H. (See Mura, H.)	
Hyakutake, H. (See Shuto, Y.)	
Hyodo, M. (See Watanabe, H.)	
Hyodo, M. (See Sugiyama, T.)	
Iki, K. (See Shinoda, S.)	
Kida, M.	
Algebraic extensions attached to algebraic tori of relative norm	95
Mura, H.	
Holonomic properties and recurrence formula for the distribution of sample correlation coefficient	39
Nakagawa, S. (See Mura, H.)	
Ono, Y. (See Mura, H.)	
Saigusa, Y. (See Yoshimoto, T.)	
Seo, T. (See Watanabe, H.)	
Seo, T. (See Sugiyama, T.)	
Shinoda, S.	
Extended marginal homogeneity models based on complementary log-log transform for multi-way contingency tables	25
Shuto, Y.	
Confidence regions for regression parameter in measurement error model	1
Sugiyama, T.	
Test for equality of generalized variance in high-dimensional and large sample settings	139
Tahata, K. (See Shinoda, S.)	

Tahata, K.	(See Yoshimoto, T.)	
Tomizawa, S.	(See Shinoda, S.)	
Tomizawa, S.	(See Yoshimoto, T.)	
Tsukada, S.	(See Sugiyama, T.)	
Watanabe, H.		
An estimator of misclassification probability for multi-class Euclidean distance classifier in high-dimensional data		11
Watanabe, H.	(See Sugiyama, T.)	
Yamada, T.		
Constrained linear discriminant rule for classification of two groups via the Studentized classification statistic W for large dimension		69
Yoshimoto, T.		
Quasi point-symmetry models based on f -divergence and decomposition of point-symmetry for multi-way contingency tables		109
